PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science student with a strong foundation in Python, Full Stack Web Development, and Software Engineering. Experienced in developing Python applications, web technologies, and solving real-world programming problems through academic projects and internships. Skilled in Flask, MySQL, Git, Linux, HTML, CSS, and JavaScript. Seeking opportunities as a Python Full Stack Developer or Software Engineer.

EDUCATION

SVR Engineering College 2022–2026
B.Tech in Computer Science & Engineering

SDR's Akanksha Junior College 2020–2022
Intermediate

Sri Chaitanya EM High School 2020
SSC

TECHNICAL SKILLS

Programming Languages: Python, Java, C, JavaScript
Frontend: HTML5, CSS3, Bootstrap, Responsive Web Design
Backend: Python, Flask, Django (Basic)
Databases: MySQL, SQLite
Developer Tools: Git, GitHub, Linux, VS Code
Core Concepts: OOP, DBMS, Software Development, Web Development
Soft Skills: Problem Solving, Team Collaboration, Leadership, Time Management

INTERNSHIP EXPERIENCE

Cyber Security & Ethical Hacking Intern — Blackbuck Engineers May 2024–Jul 2024

- Worked with Python automation scripts and cybersecurity-related tasks.
- Assisted in technical troubleshooting and security analysis.
- Gained practical experience in Linux environments and security tools.
- Strengthened debugging, scripting, and analytical problem-solving skills.

Ethical Hacking Intern — EduSkills Academy Jan 2025–Mar 2025

- Performed hands-on cybersecurity laboratory exercises.
- Solved practical ethical hacking assignments.
- Improved secure computing and cybersecurity knowledge.
- Enhanced debugging and analytical thinking skills.

PROJECTS

Password Strength Analyzer — Python

- Developed a Python application to evaluate password strength using complexity and entropy analysis.
- Implemented real-time password validation with improvement suggestions.
- Applied secure password evaluation techniques.
- Designed an intuitive user-friendly interface.

Railway Ticket Booking System — Python

- Developed a console-based railway ticket booking application.
- Implemented ticket reservation and booking functionality.
- Used modular programming for maintainable code.
- Improved understanding of file handling and application logic.

CERTIFICATIONS

- Google Cybersecurity Professional Certificate (2024)
- Cisco Certified Support Technician (CCST) – Cybersecurity (2024)
- Palo Alto Networks – Network Security Fundamentals (2024)
- Blackbuck Engineers – Cyber Security & Ethical Hacking Internship Certificate (2024)
